Extraordinary general meetings are held when the Board finds reason for such pursuant to the Swedish Companies Act.

ANNUAL GENERAL MEETING 2011

The 2011 Annual General Meeting was held in Stockholm on April 28. A total of 9 shareholders or their proxies were present, representing 41.3 percent of the number of shares and votes. The minutes from the AGM can be found on INVISIO Communications' website www.invisiocommunications.com. A number of the resolutions that were passed follow below.

Chairman of the Board at that time, Heléne Vibbleus Bergquist, was elected to chair the AGM.

The AGM resolved to adopt the Company's income statement and balance sheet for 2010, to adopt the consolidated income statement and consolidated balance sheet for 2010, to distribute the Company's deficit in accordance with the recommendation of the Board and the CEO in the 2010 Board of Directors' report (that is, to carry it forward), and to discharge the Board members and the CEO from liability for the 2010 financial year.

The AGM also resolved to authorize the Board, on one or more occasions before the next AGM, with or without deviation from the shareholders' pre-emption rights, to make decisions on the issue of new shares, stock options, and/or convertibles.

The reason for deviating from the shareholders' pre-emption rights is to spread ownership in the Company through a listing of the Company's stock on NASDAQ OMX Stockholm or, should such a need arise, to strengthen the Company's financial position. Decisions supported by said authorization shall comprise a maximum of 2,500,000 shares in new share issues, in the exercising of stock options, and/or the conversion of convertibles, corresponding to approximately 9.7 percent of the number of shares and votes outstanding at that time. Cash issues or set-off issues conducted with deviation from the shareholders' pre-emption rights may only be carried out at a price equal to the market value of the share, stock option, or convertible and on the basis of any altered terms

the Board may deem necessary in order to complete the issue. In the case of issues invoking shareholders' pre-emption rights, the Board decides on the price. The authorization encompasses the right to decide on cash issues and set-off issues and otherwise in compliance with the conditions stipulated in Chapter 2, Section 5, Paragraph 2, Items 2, 3, and 5 of the Swedish Companies Act.

Lars Röckert, Anders Persson and Mats Warstedt were re-elected as directors, while Jan Samuelson was elected as a new director. Lars Röckert was elected as the new Chairman of the Board. The 2011 AGM resolved that directors' fees shall be payable in the amount of SEK 275,000 to the Chairman of the Board and SEK 125,000 to each of the other directors. The AGM also resolved that fees shall be payable to the auditor in accordance with an approved invoice and decided on guidelines for compensation of the CEO and other senior executives.

Further, the AGM adopted a set of instructions for the Nominating Committee.

ANNUAL GENERAL MEETING 2012

The 2012 AGM will be held at 13:00 on Tuesday 29th of May at the premises of Erik Penser Bankaktiebolag at Biblioteksgatan 9 in Stockholm. Notice of the AGM can be found on INVISIO Communications' website www.invisiocommunications.com.

The Nominating Committee shall consist of four members, who shall be appointed as follows:

Before the end of the third quarter, the Chairman of the Board shall contact the three largest shareholders of the Company, who then each appoint one member – who should not be a director on the Board – to serve on the Nominating Committee. One of these shall be appointed to serve as committee chair. If any of the three largest shareholders refrain from appointing a nominating committee member, the Chairman of the Board shall urge another major owner to appoint a member. Shareholders who have appointed a member have the right at any time to replace their designated member with another representative. In addition, the Chairman of the Board shall be a member of the Nominating Committee, but shall not be appointed as committee chair. Information on the Nominating Committee's composition shall be made public no later than six months before the Annual General Meeting and in the Company's interim report for the first nine months of the year. The Nominating Committee shall have the right to charge the Company the costs for engaging recruitment consultants, if such consultants are deemed necessary to obtain a suitable selection of candidates for the Board. The Nominating Committee shall report its work at the Annual General Meeting.

The Nominating Committee prior to the 2011 AGM comprised Lage Jonason, who also acted as Committee Chairman and represented himself and his family and companies, Ramsay Brufer, representing Alecta Pensionsförsäkringar, Björn Franzon, representing Swedbank Robur fonder, and Chairman of the Board Lars Röckert.

The Nominating Committee has submitted its proposal, which means that the Board will comprise five regular members and no deputies. Re-election of Anders Persson, Lars Röckert, Jan Samuelson and Mats Warstedt as regular members and election of Lage Jonason as a new member are proposed. It is proposed that Lars Röckert be re-elected as Chairman of the Board and that Lage Jonason be elected as the new Vice Chairman of the Board. Long-term incentives programme

In 2007, the Board established a synthetic option program for all Group employees. During the term of the program, participants were granted employment-related options and performance-related options.

The options were granted free of charge and encompassed a total of 700,000 options, of which 350,000 were employment-related options and 350,000 were performance-related options. Exercise of employment-related options required, in principle, that the employment relationship to exist at the time of exercise. In addition, exercise of performance-related options required the achievement of certain financial targets set by the Board.

The option program had a term of approximately four years from the grant date and expired on June 30, 2011. The growth in value of granted options was maximized at three times the share price at the time of the launch which amounted to SEK 19.00 as at July 9, 2007.

Board's report on internal control and risk management pertaining to financial reporting

The Board's responsibility for internal control and risk management is regulated in the Swedish Companies Act and, for Swedish limited liability companies whose shares are available for trading on a regulated market in Sweden (currently NASDAQ OMX Stockholm and NGM Equity), also in the Swedish Code of Corporate Governance. In addition to the rules in the Swedish Code of Corporate Governance regarding information about corporate governance, the rules of the Swedish Annual Accounts Act on corporate governance reporting also apply to companies whose shares are available for trading in a regulated market. Thus, INVISIO Communications is not formally bound to the Swedish Code of Corporate Governance or the rules of the Swedish Annual Accounts Act on corporate governance reporting, since the Company's shares are not available for trading on a regulated market, although the Code serves as an important reference for corporate governance within the Company. According to the Swedish Annual Accounts Act, the corporate governance report shall include information about the most important features of the Company's systems for internal control and risk management with respect to financial reporting.

Internal control and risk management with respect to financial reporting are part of INVISIO Communications' overall internal control and risk management and comprise a central component of the Company's corporate governance. INVISIO Communications defines internal control and risk management as a process that is influenced by the Board, the Audit Committee, the CEO, other Company management, and other employees and that is designed so as to provide reasonable assurance that INVISIO Communications' goals are achieved with respect to suitable and effective operations, reliable reporting, and compliance with applicable laws and statutes. This process is based on a control environment that fosters discipline and structure for the other four components of the process – risk assessment, control structures, information and communication, and follow-up. The process is based on the framework for internal control issued by the Committee of the Sponsoring Organizations of the Treadway Commission (COSO), www.coso.org.

Board's report on internal control and risk management pertaining to financial reporting can be found below and gives information about the most important features of the Company's systems for internal control and risk management with respect to financial reporting. This report has been audited by the Company's auditor.

Internal control and risk management with respect to financial reporting are aimed at providing reasonable assurance regarding the reliability of the external financial reporting in the form of interim reports, annual reports, and year-end reports and ensuring that the external financial reporting is prepared in accordance with law, applicable accounting standards, and other requirements on listed companies.

INSPECTION ENVIRONMENT

The control environment encompasses the values and the ethics that the Board, the Audit Committee, the CEO, and other members of management communicate and adhere to, as well as the organizational structure, leadership, decision-making channels, authority, responsibilities, and competence held by the employees. An overview of the Company's organization, governance, and con-

trol – including external and internal governance documents that are important aspects of INVISIO Communications' control environment – is provided on page 36 in the Corporate Governance Report. INVISIO Communications is characterized by a comparatively lean and decentralized organization with clear responsibility for the respective business area managers who, together with the CEO, comprise company management.

The Board has overarching responsibility for internal control and risk management with respect to financial reporting. The Board has adopted a Work Plan for the Board of INVISIO Communications that forms an internal governance document. This document stipulates the Board's responsibility and regulates the internal division of duties among the Board, its committees, and its members.

The Board has appointed an Audit Committee, comprised of all Board members, tasked with and responsible for monitoring the Company's financial reporting and, in this context, also monitoring the effectiveness of the Company's internal control and risk management. The Audit Committee shall also stay informed about the audits of the annual accounts and the consolidated accounts, examine and monitor the external auditor's impartiality and independence and therewith pay particular attention to whether the external auditor provides the Company with services other than auditing, and assist with the preparation of proposals for the AGM on decisions regarding the choice of auditor.

The Board has also established internal governance documents in the shape of a set of instructions for the CEO of INVISIO Communications, as well as instructions for financial reporting to the Board of INVISIO Communications.

As regards financial reporting, responsibility for maintaining an effective control environment and for the ongoing work on internal control and risk management is delegated to the CEO. The Company's CFO works under the direction of the CEO on continuously developing and improving the internal control and risk management with respect to financial reporting – on the one hand proactively with a focus on the internal control environment, on the other hand by quality assuring the external financial reporting. In 2011, INVISIO Communications continued the review of internal governance documents in order to ensure that they meet the Company's current needs and are in compliance with laws, applicable accounting standards, and other requirements for listed companies. As a result of this review, several internal governance documents have been updated. In addition to this, the focus in 2011, as in 2010, was on effective financial governance and control in the form of follow-ups of targets and plans and clear divisions of responsibility for income and expenses.

RISK ASSESSMENT

As regards financial reporting, INVISIO Communications' risk assessment is designed to identify and evaluate the most significant risks affecting internal control with respect to financial reporting. Risk assessment provides a foundation for decisions on how risks are to be managed using various control structures, with the aim of ensuring that the basic requirements of financial reporting are fulfilled. The risk assessment that has been performed shows that the most significant risks for errors in the financial reporting per-

tain primarily to the fair valuation of intangible assets in the form of capitalized development costs, inventories, and trade accounts receivable. As per December 31, 2011, the assessment is that the reported value of these items corresponds to their fair value.

The Company's risk management is described further in the Board of Directors' Report and in Note 2.

CONTROL STRUCTURES

The most significant risks identified with respect to the financial reporting are managed using various control structures to ensure that the basic requirements of the external financial reporting are fulfilled. These control structures include both overarching and more detailed controls designed to prevent, discover, and correct errors and deviations, and which can be both formal and informal in nature. Areas covered by the controls include authorized approval of business transactions, the reliability of business systems, compliance with laws, applicable accounting standards, and other requirements placed on listed companies, and areas that contain significant elements of estimation.

INFORMATION AND COMMUNICATION

As regards financial reporting, information and communication about internal governance documents are available to the Company's employees in INVISIO Communications' document management system, High Stage. High Stage is a web-based tool for managing business documents in a central database and features automatic version management as well as control of authorization, reviews, and approval. Information and communication on internal governance documents are also provided in connection with staff meetings.

As regards financial reporting, the CEO and the Company's CFO report the results of their work on internal control and risk management at Audit Committee meetings.

External financial reporting is conducted in accordance with laws, applicable accounting standards, and other requirements on listed companies, as well as in accordance with relevant internal governance documents, such as the Finance Handbook, instructions for financial reporting to the Board, and the Information Policy.

FOLLOW-UP

Follow-ups to ensure the effectiveness of internal control and risk management with respect to financial reporting are conducted by the Board, the Audit Committee, the CEO, and other management. This includes follow-ups of the CEO's weekly business reports to the Board, of monthly financial reports against budgets and targets, of any reports from the CEO and the Company's CFO concerning identified shortcomings in internal control with respect to the financial reporting, and of reports from the Company's auditor.

INVISIO Communications does not have a dedicated internal audit function. The Board has evaluated the need for such a function and has concluded that the organization's size and the scope of operations do not warrant such a function.
